

We have developed more than fifty websites. We are actively involved in maintenance and support of these websites. We also develop dynamic websites using Ruby On Rails but purpose of this document is to showcase our WordPress capabilities.

## Features we normally includes in our package

- Google Map
- Enquiry Form
- Email ID for domain
- Social Links
- Testimonials
- Photo gallery

and many more depending on clients requirment.

## Highlights for reference here

1. <http://omienergy.com/> is the official website for Omi Renewable Energy that takes initiatives in many areas like energy conservation and to increase use of renewable energy sources.
2. <http://sylart.com/> is the official website for the famous professional singer Ms. Manjushree Oak.
3. <http://rstourism.in/> is the official website for RS Tourism.

4. <http://ajaykhotphotography.com/> is the photography site.

## Few of our Dynamic sites.

1. <http://finthings.com> provides organized financial market information and data for educating and enabling investors to make good, data driven investment decisions.
2. <http://zipvc.com>, along with the corresponding zipvc app from Google Play Store, provides free 1 page website with 5 photos. Try searching for “Japanese classes in Dahanukar” and you will see zipvc on the first page.

## Our Work Structure

- Domain registration
- Package selection based on clients requirement
- Template selection
- Content adding and actual work

## Other Capabilities

- Mobile platforms: Our team has developed more than hundred iOS and Android apps over the last 4 years.
- Graphic Design
- Tele Marketing
